BUSINESS ALLIANCE WITH

Facts & Figures

5

International Partnership

As an authorized business channel partner for five foreign companies in Bangladesh. Global Cynax brings global solutions to local industries ensuring innovation and excellence.

370

370+ Satisfied Clients

Global Cynax boasts over 370 satisfied clients spanning across every industry in Bangladesh.

13

Diverse Industry Access

With a presence in 13 dynamic industries. including Textile & Garments, Pharmaceutical, Food & Beverage, Steel, Cement, Power Plants, Ceramics, Paint, Paper, Feed Mills, Grain Processing, etc.

5

Strategic Office Locations

Operating from five strategic locations including three offices in Dhaka. one in Chattogram. and a service center near Dhaka

65

Skilled Workforce

Our dedicated team consists of 65 professionals who are committed to upholding the highest standards of service and support.

An Introduction to Global Cynax

Global Cynax stands as one of the foremost engineering companies in Bangladesh, specializing in the fields of Air Compressors, Industrial Bearing, Lubrication Systems, Fuel Dispenser, Heat Exchangers, HVAC Filter Element (HEPA Filter) and more. We take pride in offering an extensive range of industry-leading and cost-effective equipment, as well as dedicated service support to cater to our clients' diverse requirements.

Our business is fortified by alliances with world-renowned companies, such as SKF Sweden for Industrial Bearing, Mark Compressor Belgium for Screw Compressor, Lincoln India for Lubrication System, Tatsuno Corporation Japan for Fuel Dispensers, Burckhardt Compression India for Gas Compressors, Alfa Laval Sweden for Heat Exchangers and Centrifuges in the Bangladesh market.

Since our inception in 2007, Global Cynax has steadily ascended the ranks to emerge as a leading provider of machinery and equipment to various sectors, including Textile & Garments, Pharmaceuticals, Food & Beverage, Chemicals, Steel, Cement, Power Plants, Ceramics, Paint, Paper, Glass, and more. Our extensive history and years of experience have allowed us to amass a wealth of knowledge and cultivate robust relationships with both our valued customers and our global supplier partners.

Today, the Global Cynax family, along with its subsidiary concerns, comprises over 100 dedicated members. We maintain four strategically located offices across Bangladesh and operate a state-of-the-art facility unit to offer comprehensive engineering service support.

Values & Ethics

- To build trust and confidence
- To keep the business ethics up
- To have an open and honest communication
- Corporate Commitment
- To create a company that treats everyone with respect, no matter their position or background.
- To provide excellent solutions and services to our valuable clients
- To maintain good relationship with the clients & principals
- To make contributions to society and environment

DISCOVER THE FINEST EUROPEAN SCREW COMPRESSORS IN BANGLADESH

MARK Screw Compressor

With extensive experience in the production of screw-type air compressors in Europe, specifically in Italy and Belgium, Mark is the trusted brand you can rely on when seeking assistance with your compressed air needs. Mark compressors offer a diverse selection of oil-injected rotary screw compressor models tailored to meet the specific requirements of your business. Regardless of your capacity demands, we have a range of options available to meet your needs, and we can deliver Mark Compressors from our plants in Belgium and China. As a local business channel partner of Mark in Bangladesh, Global Cynax is fully prepared to offer you 24/7 after-sales support and access to spare parts, ensuring uninterrupted and efficient operation of your equipment. You have the flexibility to choose from a variety of Mark Compressor models and series available below to align with your specific requirements.

Belt Drive Screw Compressor

- Capacity Range: 2.2kW to 37kW
- Model/Series: MSM/MSA/MSS
- Choosing the correct compressor is of utmost importance for any business. Mark's Belt Driven Series presents the perfect solution for small and medium-sized industries. It also stands out as the prime option when making the replacement from a piston compressor to your initial screw compressor.
- Shipments can originate from any of the manufacturing plants in Belgium, Italy, Turkey, or China.

Fixed Drive Screw Compressor

- Capacity Range: 7.5kW to 75kW
- Model/Series: MSS/RMM/OIS
- New generation in-house designed screw elements, with improved efficiency. Integrated direct drive transmission for minimal losses. Smart inlet valve optimizes the inlet flow and improves efficiency.
- Shipments can originate from any of the manufacturing plants in Belgium, Italy, Turkey, or China.

Gear Drive Screw Compressor

- Capacity Range: 15kW to 110kW
- Model/Series: RMF/RMM/RMB/RMC/RMD/RME-IVR
- A frequency-driven compressor maintains a smoother air profile with lower peaks by adjusting air delivery to match specific customer needs in real time. This efficiency is achieved using a frequency inverter, resulting in highly cost-effective energy consumption.
- Shipments can originate from any of the manufacturing plants in Belgium, Italy, Turkey, or China.

Air Dryer & Filter

- Mark Dryer & Filter, by cooling the compressed air and removing most of the moisture, guarantees high-quality dry air.
- Mark provides both Refrigerated and Desiccant Dryers.
- Shipments can originate from any of the manufacturing plants in Belgium, UK or China.

Global Cynax Bangladesh Ltd

Authorized Industrial Distributor

SKF Industrial Bearing

SKF, the world's leading bearing manufacturer based in Sweden, has a global presence with 108 manufacturing facilities across various countries, including the USA, Malaysia, South Africa, China, and more. As an authorized distributor in Bangladesh, Global Cynax proudly represents SKF. You can find our details on SKF's official website, assuring you of genuine SKF bearings sourced directly from SKF plants for your machinery's safety and reliability.

Ball Bearing

SKF's Industrial Ball Bearings are known for exceptional quality, durability, and high performance in demanding industrial settings, making them a trusted choice worldwide in various industries.

Roller Bearing

Industrial Roller Bearings from SKF, distributed by Global Cynax in Bangladesh, unite global excellence with local service. SKF, a leading bearing manufacturer, offers top-quality products, and Global Cynax, as an authorized distributor, provides accessible, high-quality roller bearings for diverse industrial needs in Bangladesh. This partnership links SKF's advanced technology with Bangladesh's industrial requirements.

Housing & Insert Bearing

SKF Housing & Insert Bearings, valued for precision and durability, are vital in manufacturing, agriculture, and construction. Global Cynax, an authorized distributor in Bangladesh, connects industries to SKF's renowned bearing excellence, ensuring reliable machinery operation with a blend of local expertise and global standards.

Taper Bearing

SKF Tapered Bearings are vital in automotive and heavy machinery, known for handling loads efficiently. With global acclaim for bearing excellence, SKF is the preferred choice. In Bangladesh, Global Cynax, an authorized distributor, ensures easy access to authentic SKF bearings, ensuring reliable machinery operation and industry success.

Lincoln Lubrication System

Lincoln is a renowned pioneer in industrial lubrication solutions, offering a comprehensive range of top-tier lubrication equipment, heavy-duty pumping gear, and global technical service. Proper lubrication is essential for maintaining the smooth and efficient operation of machines that undergo numerous rotations each day.

Lincoln's cutting-edge lubrication systems automatically ensure the correct lubrication, preventing the common cause of machine failure. In Bangladesh, Global Cynax is the authorized exclusive business channel partner for all Lincoln products, providing supply and after-sales support to various industries.

With their dedicated support services, Global Cynax delivers high-quality Lincoln products and expert assistance to optimize equipment performance, guaranteeing utmost customer satisfaction.

Find out some of Lincoln systems as follows:

- Multi-line systems
- Spray systems
- Dual line systems
- Ink transfer systems
- Chain lubrication systems
- Single line parallel & progressive systems

Bearing Service Support

Welcome to Global Cynax, your trusted partner for comprehensive bearing services. With our team of skilled engineers trained by SKF, we provide expert guidance on bearing installation, alignment, lubrication, and condition monitoring. Our services ensure optimal performance, reliability, and longevity for your machines. We offer precise mounting techniques, advanced tools for shaft alignment, advice on lubrication selection and management, and thorough condition monitoring. As your dedicated partner, Global CYNax prioritizes after-sales support for SKF bearings and provides these services at no cost to you. Some of our highlighted services are stated below:

Bearing Mounting

Accurate bearing mounting is essential for a long bearing lifespan. Incorrect mounting, which causes 60% of bearing failures, can lead to premature wear. Global Cynax provides expert bearing mounting services by skilled engineers to ensure optimal performance.

Alignment Services

Shaft misalignment is a common cause of machinery breakdown, often resulting from inaccurate measurements, inadequate foundations, or foundation wear. 34% of bearing issues are due to misalignment. If you need proper alignment solutions, contact Global Cynax for expert services.

Lubrication of Bearings

Lack of proper lubrication is responsible for 36% of bearing issues. Global Cynax emphasizes the importance of adequate lubrication for reliable bearing operation and offers guidance to clients for extended bearing lifespan.

Condition Monitoring

Global Cynax extends its expertise to offer bearing condition monitoring services to critical bearing users. Specially for large and specialized bearing applications, Global Cynax goes beyond bearing sales and incorporates a comprehensive monitoring process if clients show interest.

After Sales Service

Global Cynax's engineering business places a strong emphasis on after-sales service support, which is not only its main strength but also its core focus. The company firmly believes that by providing exceptional after-sales service, it can foster long-term relationships with its clients.

When it comes to service support, Global Cynax's capabilities are unparalleled. Moreover, our service engineering team comprises highly qualified professionals, with many having received training from Singapore, Thailand, and India. To further enhance our response times, Global Cynax utilizes hatchback service vehicles, ensuring that their service team can promptly reach the client's site when called upon for assistance. Ultimately, Global Cynax's years of experience have underscored the significance of building strong relationships.

We have developed an acute understanding of our clients' wants and needs & committed to delivering exactly that. As a trusted partner both in the office and in the factory, Global Cynax goes above and beyond to ensure customer satisfaction and solidify long-term partnerships.
