### Our Vision :

To be an exclusive company in terms of helping global modern manufacturing industries for their process efficiency by delivering most competent energy and environmental solution.

### Mission :

To achieve our vision, we always try to retain most highest values in terms of integrity and excellence in management.

We always try to deliver world class solution for a Sustainable, Economical and Efficient growth to our each customers.

Our each thought in management of company supports environmental protection and enrichment of society with best in class energy generation equipment.

We believe in most dependable partnership with customers and suppliers as well, to have an involvement in each other's well-being and growth.

It's our motive to develop an organisation with amicable work environment by nurturing and assisting talents of each Bozzlerian in terms of helping them to grow and find satisfaction with their workmanship.

### What we are :

Bozzler Energy Pvt. Ltd. is a passion driven company by many individuals who are good at knowledge of Machine design, Industrial aspect and social responsibilities.

At BEPL in order to achieve excellence in our segment of industry, we take care of upgrading knowledge according to cutting edge modern technologies in terms of technicalities and management.

We Bozzlerians, gives equal importance to our social responsibilities as profitability while actualizing our vision.

As dealing with burning fuels and heating equipment solutions to modern industry, we always tries to deliver an energy efficient and eco friendly option which results into best resources for better productivity and environment.

Bozzler Energy Pvt. Ltd. is not any other manufacturer or supplier of heating equipment, but always is a best choice to partner with for better technical solutions viz. for now and for future too.

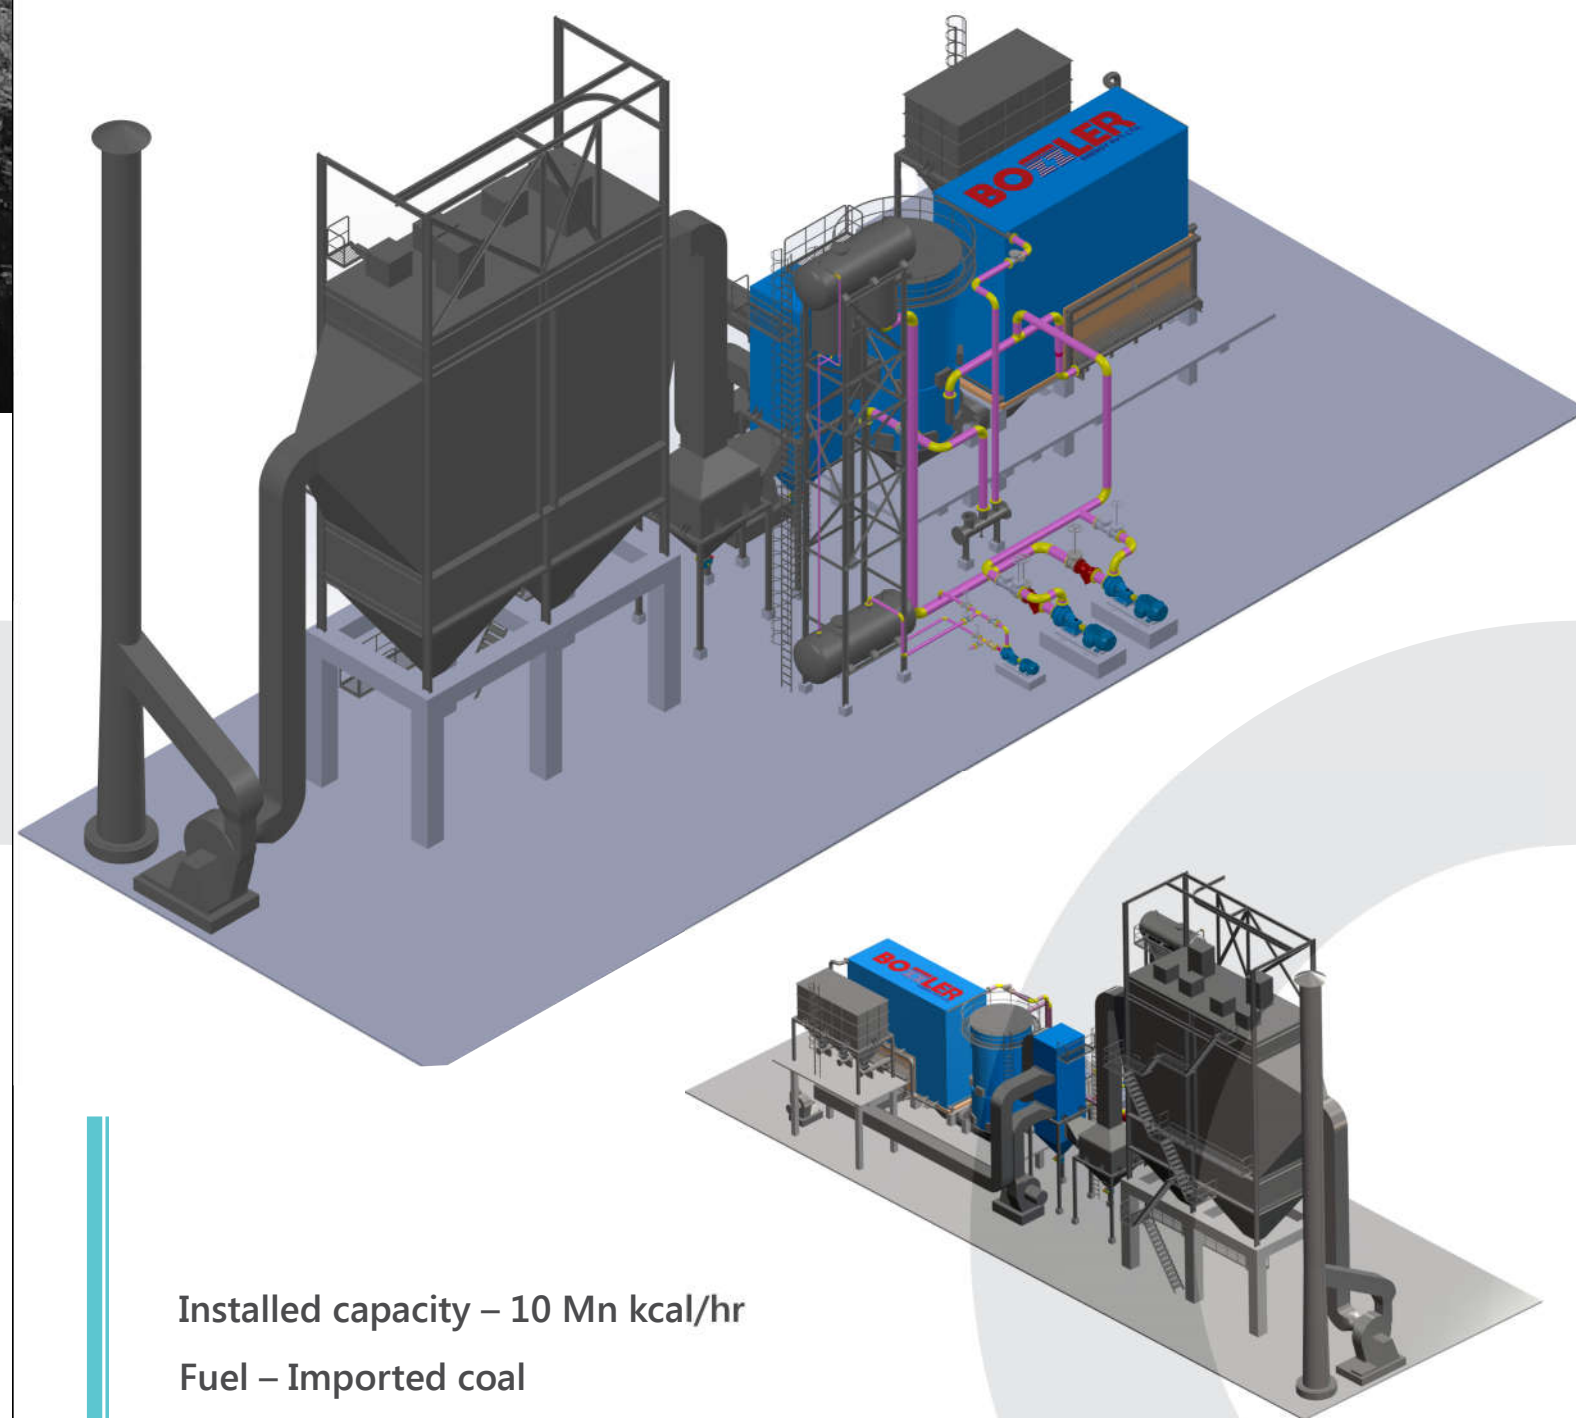

## Thermic Fluid Heater

### Power Block BX Series

Capacity – 4.0 – 20 Mn kcal/hr

Temperature Range – up to 450 Deg C

Fuel – Solid fuel below 10 mm

Installed capacity – 10 Mn kcal/hr

Fuel – Imported coal

Location – Ahmedabad

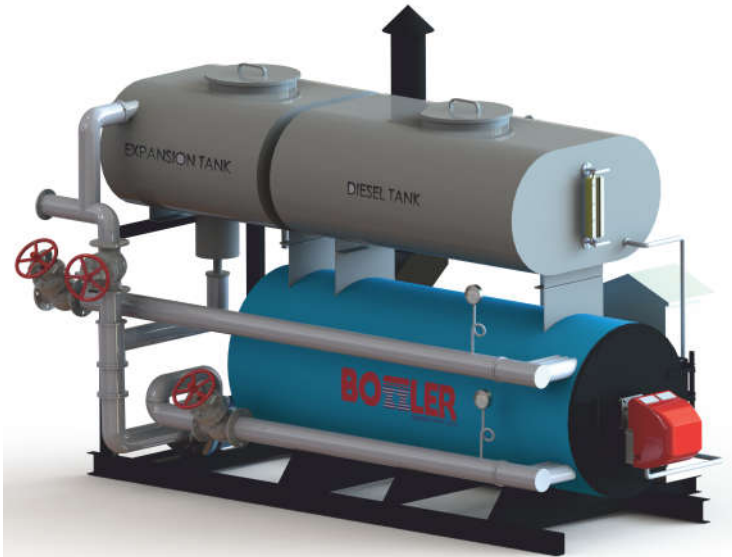

Our products

## Thermic Fluid Heater

### Envirotherm BH Series

Capacity – 0.05 – 10 Mn kcal/hr  
Temperature Range – up to 450 Deg C  
Fuel – N.Gas/ LPG/ Diesel/ FO/ All Fluid Fuels

Our products

## Thermic Fluid Heater

### Combitherm BVX Series

Capacity – 1.0 – 3.0 Mn kcal/hr  
Temperature Range – up to 450 Deg C  
Fuel – Coal/ Wood/ Briquette/ Wood Pellets/ All Solid fuels

Our products

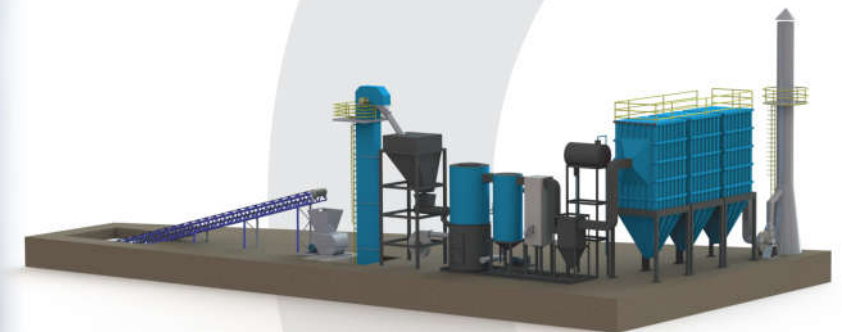

### Combitherm BV Series

Capacity – 0.1 – 1.0 Mn kcal/hr  
Temperature Range – up to 450 Deg C  
Fuel – Coal/ Wood/ Briquette/ Wood Pellets/ All Solid fuels

### Soletherm BL Series

Capacity – 1.0 – 5.0 Mn kcal/hr  
Temperature Range – up to 450 Deg C  
Fuel – Coal/ Wood/ Briquette/ Wood Pellets/ All Solid fuels

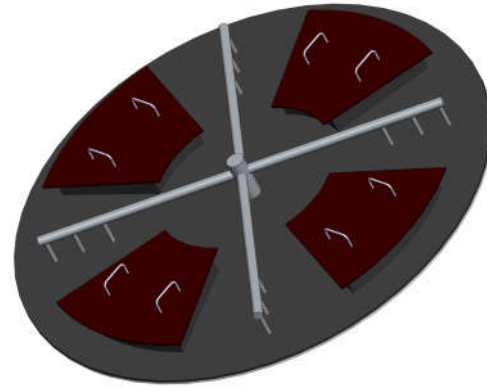

## Upgradations in Solid Fuel Fired Thermic Fluid Heaters

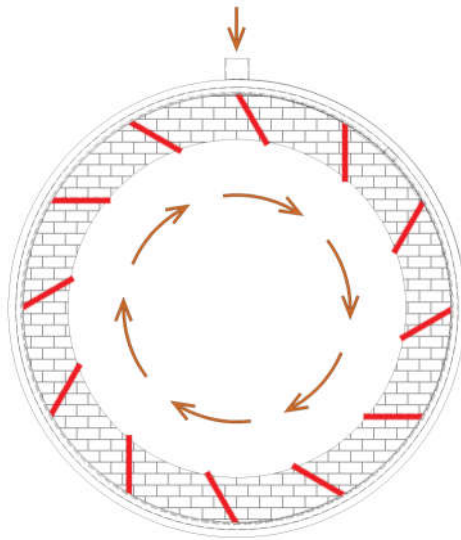

### Unique top door design:

- ◆ Wide doors for ease of manual cleaning
- ◆ Compressed air cleaning system for auto cleaning
- ◆ Soot blowing system for uninterrupted longer working days
- ◆ Elevated top doors for ease of opening of the same.

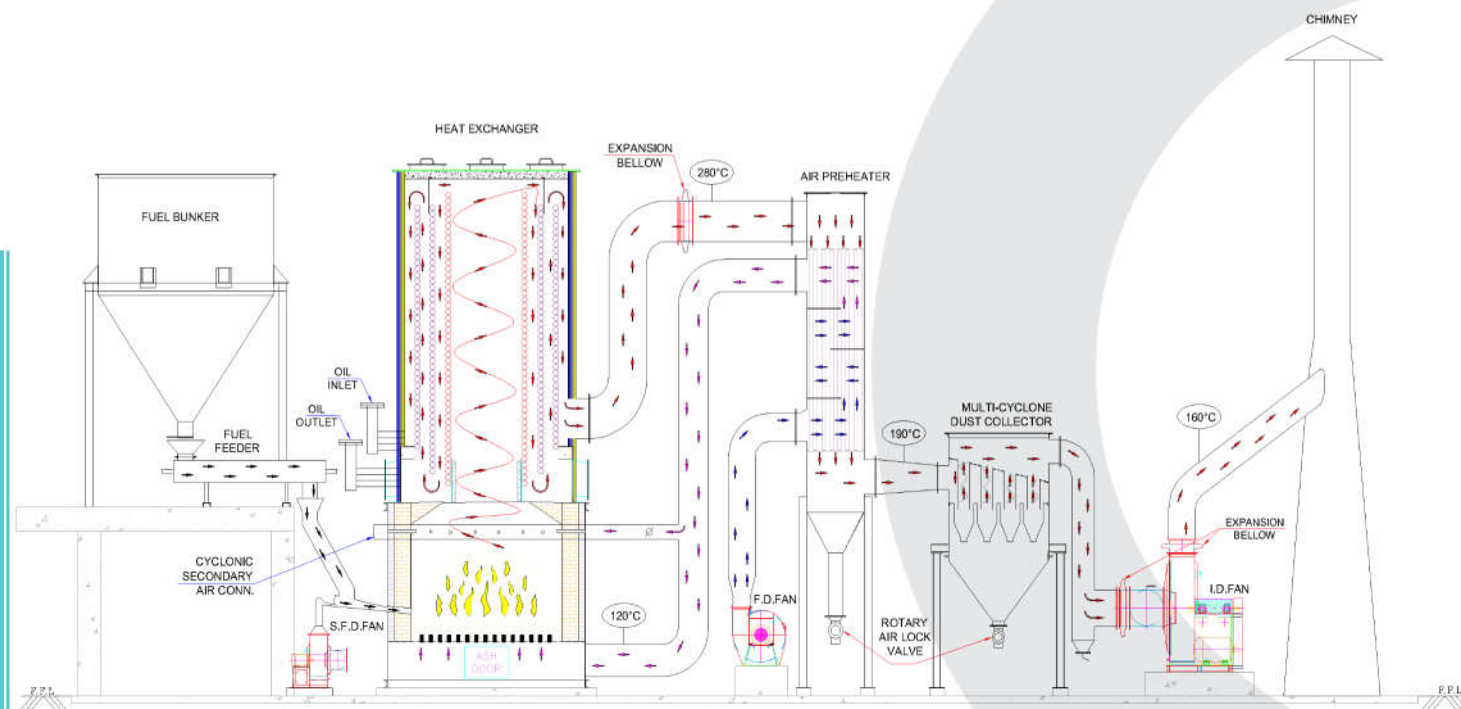

### Cycloidal Secondary Air system

- ◆ Increases Efficiency of heat transfer by developing turbulent flue gas flow.
- ◆ Helps to Optimize Residence Time Distribution
- ◆ Maximize combustion of volatile matter in fuel.

### Genuine Four Pass System:

- ◆ Better efficiency in minimal space
- ◆ For ease of transportation and Installation
- ◆ Optimization oil and flue gas flow to deliver better performance

## Steam Boiler

### Streamline BS-F Series

Capacity – 300 – 2000 Kg/hr

Pressure – 10.54 Kg/Cm<sup>2</sup>

Fuel – N.Gas/ LPG/ Diesel/ FO/ All Fluid Fuels

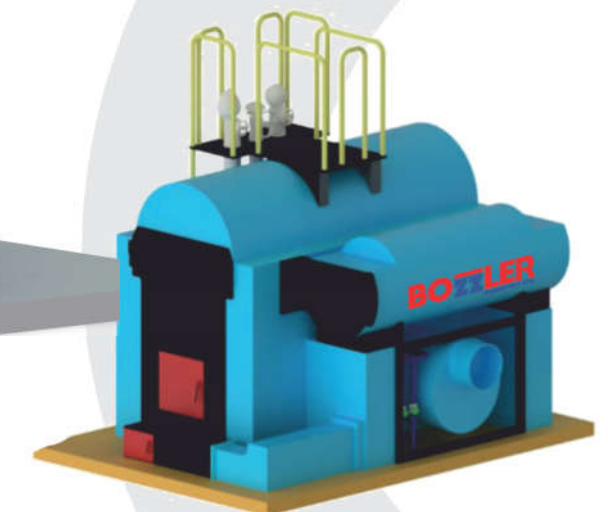

### Exhalation BS – S Series

Capacity – 300 – 2000 Kg/hr

Pressure – 10.54 Kg/Cm<sup>2</sup>

Fuel – Coal/ Wood/ Briquette/ Wood Pellets/ All Solid fuels

Our products

## Edible Oil Heater

Our products

### Edimax – BEH series

Capacity – 0.05 – 1.0 Mn kcal/hr  
Fuel – N.Gas/ LPG/ Diesel/ FO/ All Fluid Fuels

### Edimax - BVEH Series

Capacity – 0.05 – 1.0 Mn kcal/hr  
Fuel – Coal/ Wood/ Briquette/ Wood Pellets/ All Solid fuels

### Hot Air Generator Cyclotherm - BHA Series

Capacity – 1.0 – 5.0 Mn kcal/hr  
Temperature Range – up to 600 Deg C  
Fuel – N.Gas/ LPG/ Diesel/ FO/ All Fluid Fuels  
Coal/ Wood/ Briquette/ Wood Pellets/ All Solid fuels

### Hot Water Generator Aquatherm - BHW series

Capacity – 1.0 – 5.0 Mn kcal/hr  
Temperature Range – up to 140 Deg C  
Fuel – N.Gas/ LPG/ Diesel/ FO/ All Fluid Fuels  
Coal/ Wood/ Briquette/ Wood Pellets/ All Solid fuels

## Quality Certification

At Bozzler Energy Pvt. Ltd. we try to have product development system with Multi Point quality check starts with designs to dispatch. Our product only represents our quality management system and it's conformity with requirements or ISO 9001:2005.

In order to deliver best results and follow most stringent norms of various certifications like ISO 9001, CE, IBR etc. we not only check product quality but also developed strict procedures for raw material quality check and service follow up for uninterrupted high performance.

## Manufacturing Superiority

Bozzler Energy Pvt. Ltd. Claims the quality with support of their full-fledged infrastructure and high performance latest machineries for Coil boiler's production.

- Automated TIG welding
- Plasma & Oxy flame CNC cutting machine
- Automatic coil bending facility
- Hydraulic Shell bending machine
- High capacity cranes
- Radial Drill machine

## Sourcing from Globally Best Manufacturers

When it comes to best quality deliverance, Bozzler Energy Pvt. Ltd. believes to accommodate only best in class quality parts as part of our system.

We select our system components on the basis of values we believe in our product quality i.e. Appearance, Performance, durability and quick response when it comes to maintenance.

As a result of which "Selection of Bozzler Energy Pvt. Ltd.'s equipment will make your choice most reliable and sustainable"

## BOZZLER Across The Globe

Installation

Representative / Dealer

## Industries we Cater

- Road Construction Industry
- Food & Beverages Industry
- Plywood & Laminate Industry
- Chemical Industry
- Pharmaceutical Industry
- Rubber Industry
- Oil & Lubricant Manufacturing
- Re-neries
- Textile Industry
- Packaging Industry
- & Many More....
